

Did You Know?

Street Smarts !!

Knowing how to protect yourself--and joining with your neighbors to make your streets safer places to be--can reduce the opportunity for muggers, purse-snatchers, and other street criminals to strike.

Three Basic Rules

DO stay alert. Keep your mind on your surroundings, who's in front of you and who's behind you. Don't get distracted. If you're worried about crime, ask a friend to accompany you when you go out.

DO communicate the message that you're calm, confident, and know where you are going. Stand tall, walk purposefully, and make quick eye contact with people around you.

DO trust your instincts. If you feel uncomfortable in a place or situation, leave.

When Walking

- Plan the safest route to your destination and use it. Choose well-lighted busy streets and avoid passing vacant lots, alleys, or construction sites. Take the long way if it's the safest.
- Know your neighborhood. Find out what stores and restaurants are open late and where the police and fire stations are.
- Make sure you know where your children are going when they go out and encourage them to play with other kids. Show them safe places in the neighborhood where they can go if they ever feel scared.
- Carry your purse close to your body and keep a firm grip on it. Carry a wallet in an inside coat or side trouser pocket, not in a rear trouser pocket.
- Don't flaunt expensive jewelry or clothing.
- Walk facing traffic so you can see approaching cars.
- Don't overburden yourself with packages and groceries that make it hard to react.
- Bring "Emergency" change for cab fare, bus fare, or a telephone call.
- Bring a cellular phone.
- Have your car or house key in hand as you approach your vehicle or home.
- If you suspect you're being followed by someone on foot, cross the street and head for the nearest well-lighted, populated area. Walk quickly or run to a house or store to call the police. If you are really scared, scream for help.
- If you are being followed by someone in a car, change direction immediately and make a visible point of writing down the license number.
- Never hitchhike.

In The Car

- Keep your car in good running condition to avoid breakdowns.
- Plan your route in advance, particularly on long or unfamiliar trips. Have enough gas and money to get there and back.
- Drive with all car doors locked. Keep windows rolled up whenever possible.
- Never pick up hitchhikers.
- If you see another motorist in trouble, signal that you will get help and then go to a telephone and call police.
- Carry a cellular phone with you.
- If your car breaks down, raise the hood, use flares, or tie a white cloth to the door handle. Stay in the locked car. When someone stops, ask them to phone for help.
- Park in well-lighted areas that will still be well-lighted when you return.
- Be particularly alert and careful when using underground and enclosed parking garages.
- If you are being followed while driving, drive to the nearest police or fire station, open gas station or other business, or well-lighted residence where you can safely call the police. Try to get the car's license number and description. If no safe areas are near, honk the horn repeatedly and turn on your emergency flashers.

Buses

- Try to use well-lighted and frequently used stops.
- Try to sit near the bus driver.
- Don't fall asleep. Stay alert!
- While waiting, stand with other people.
- If you are verbally or physically harassed, attract attention by talking loudly or screaming.
- Be alert to who gets off of the bus with you. If you feel uncomfortable, walk directly to a place where there are other people.

In Elevators

- Look in the elevator before getting in to be sure no one is hiding.
- Stand near the controls.
- Get off if someone suspicious enters. If you're worried about someone who is waiting for the elevator with you, pretend you forgot something and don't get in.
- If you're attacked, hit the alarm and as many floor buttons as possible.

Jogging, Biking and Other Outdoor Activities

- Choose routes in advance that are safe and well populated.
- Vary your route and schedule.
- Avoid jogging and biking at night.
- Know businesses that are open and locations of police and fire stations.
- Consider carrying a shriek alarm.
- Consider not wearing your stereo headphones. It's safer to be alert.
- Carry a cellular phone with you.

What If It Happens To You?

- Stay as calm as possible. Try not to panic or show any signs of anger or confusion.
- If the attacker is only after your purse or other valuables, don't resist. You don't want to escalate a property crime into a violent confrontation.
- Make a conscious effort to get an accurate description of your attacker(s): age, race, complexion, body build, height, weight, type and color of clothing.
- Call the police immediately, identifying yourself and your location. Contact your local victim assistance agency to help you deal with the trauma that crime victims can experience. They can also help you learn about victim compensation laws and how to follow your case progress.

When in Malls strolling, jogging etc.

- Display confidence. Don't walk in a daze, but with purpose.
- Don't carry large amounts of cash.
- Carry your purse or briefcase close to your body and, preferably, in front of you.
- Don't put your wallet in your back pocket (doing so is also bad for your back).
- Have your keys in your hand when walking to your car.
- Look into your car before getting into your car.

Don't put receipts with your purchased goods--a thief can use those receipts to cash in what you just bought!

Defense Against Dogs

- When confronted by a threatening dog, our impulse is often to turn and run - the worst response, since movement triggers the chase instinct in dogs.
- Stand very still and try to be calm.
- Don't scream at the dog and run.
- Be aware of where the dog is. Look in its general direction, but don't stare into its eyes. This is considered an aggressive challenge.
- Let the dog sniff you.
- In a low voice say, "No! Go home!"
- Stay still until the dog leaves.

Security & Safety Precautions

- Create a safety plan.
- Listen to and act on your intuition. It's better to be safe and risk a little embarrassment, than stay in an uncomfortable situation that may be unsafe.
- If you are in danger or being attacked and want to get help, yell "Call 911!" or give specific directions to onlookers; for example: "You! Get the police!" or "Walk me to the store on the corner, I'm being followed."
- Have your keys ready when approaching your car or building.
- Vary your routine: drive or walk different routes every day.
- If you suspect that someone is following you, by foot or in a car, don't go home (or they will know where you live). Go to a trusted neighbor or to a public place to call police, or directly to police station.

- Do not label keys with your name or any identification.
- Don't talk about your social life or vacation plans where strangers can overhear you.
- Always carry enough change for a telephone call.

At The Office

- Don't leave your keys lying about
- Notify security personnel if you notice suspicious persons or vehicles, especially after normal working hours.
- Be extra careful in stairwells and isolated or poorly-lighted restrooms.
- In an elevator stand near the controls and locate the emergency button.
- Do not get in an elevator with someone who looks suspicious to you.
- Know your co-workers and look out for each other.
- At every phone: Emergency numbers for security, police, fire departments, and list of employees who are trained in CPR or first aid.

TAKE ACTION TODAY

- Help reduce opportunities for street crime in your community.
- Make sure street lighting is adequate and parks, vacant lots, and alleys are free of debris and graffiti. Places that look as though no one cares attract crime.
- Get together with your neighbors and local law enforcement to start a mutual protection program like Neighborhood Watch or Apartment Watch.
- Try to make sure teens in your community have a place for their energies--a cleaned up park, recreation areas, community tasks.
- Volunteer to escort a friend or neighbor who goes to work or class at night.
- If you see a crime being committed, call the police immediately and stay with the victim until they come. Be supportive and offer to accompany the victim to the hospital or police station. How would you feel if you needed help and no one volunteered?
